Spreading the wings

Growth is the only evidence of life.

Our product SmartTown performed tremendously well during the last quarter. We won a new township with 2000+ users in Ahmedabad which will be a great experience for moving towards grander projects. More than 25 societies were added to Smart Town's list during the last one year. Additionally, we made it into new locations as Delhi and Mumbai.

Another KCS Endeavor

KCS initiated SAP Shared Support Services "SAHAYAK for SAP". With this, we are giving our hand to diverse MSMEs across the world.

Technology – Innovation and Expansion

We started working on conversational AI Chatbots and delivered a successful project for our Health tech IT project.

One New Step

"The journey of thousand miles begins with one step"

Documentations

Do you know KCS has started working on technical documentation? Few of the names to count are IEEE Document for Wi-Tronix, Nutanix, Mitsubishi, and Microsoft Azure.

Knowledge Sharing Session

We share we grow

KCS will host a webinar on SAP and how SAP shared services can help MSMEs in the second week of January.

Internship Program

We want to make-big the KCS family with a band of happy and dynamic manpower. Young minds and fresh energy is always the best to provide an opportunity to be guided in a direction towards desirable productivity. The process of screening and interviewing interns for the session 2021-22 is on and we want to train and retain all such energy in our system
